## **Agri-Fab Unveils New 42 Cu. Ft. Lawn Vac**

**Cleaning lawn waste is no longer a chore with the new electric start 315-gallon vacuum model**

Sullivan, IL – Agri-Fab, Inc. introduces its largest capacity lawn vac ever (model #45-0551), ideal for customers looking to cut down on large property cleanup time. This 315-gallon capacity (42 cu. ft.) vacuum features an 18-cu.-ft. poly utility bed and is powered by the 10 hp/305cc OHV engine with a 12V 9Ah sealed lead-acid battery for a smooth electric start.

Woven with ripstop nylon, Agri-Fab's new lawn vac is constructed of a strong, thick vinyl to prevent tears, allowing customers to pick up lawn materials without disruption. The built-in boot on top includes a drawstring to eliminate the wear point. Additionally, the top has venting through the back that limits dust and debris during cleanups.

"This vacuum is perfect for homeowners with mower decks as large as 72" to quickly clean up their land year-round," said Hilary Conner, Vice President of Sales and Marketing for Agri-Fab. "With features such as a powerful 305cc electric start engine, an enormous 42 cu. ft. capacity, an easy-dump foot latch, and a tongue stand for easy mower connection, yard cleanup has never been this painless."

Agri-Fab's 42-cu.-ft. lawn vac comes with 16"x6.5" pneumatic tires and features a 0.8-gallon fuel tank. The lawn vac is designed for right-hand discharge mower decks, and the 10' intake hose with an 8" diameter allows more material to be picked up at one time.

You can find this and all our products at several online retailers or one of the many select Agri-Fab retail partners nationwide.

**ABOUT AGRI-FAB:** Agri-Fab, Inc., with locations in Sullivan and Decatur, Illinois, is an American manufacturer that has designed and manufactured lawn and garden attachments and equipment for consumers and commercial landscaping and lawn care companies since 1975.
