Agri-Fab Introduces New 25lb. Bag Seeder

Newly designed bag seeder to make lawn care easier for home owners

Sullivan, IL – Agri-Fab, Inc. is pleased to introduce its new 25 lb capacity bag seeder, which is great for spreading grass seed or fertilizer in small or hard to reach areas. Go where a push spreader or tow behind can't and keep every inch of your lawn looking beautiful all year round.

The new 25 lb bag seeder offers many features to make seeding the yard more effective and efficient. The adjustable strap ensures a comfortable fit. The weatherproof bag keeps materials dry when the weather doesn't cooperate for lawn improvement projects. An adjustable spreader gate controls how much material is spread, and the rear deflector keeps that material on the lawn and off the body while spreading.

"We're excited to bring this new product to our customers and consumers," said Hilary Conner, Vice President of Sales and Marketing for Agri-Fab. "Our product development team continues to innovate our products to improve efficiency, so our customers have more time to enjoy the things that they want to do."

The new 25 lb bag seeder is now available for homeowners' spring seeding and fertilizing needs. You can find this and all of our products at several online retailers or one of the many Agri-Fab retail partners nationwide.
