Agri-Fab Introduces New 3lb. Garden Seeder

Newly designed garden seeder can accommodate 20 different seed types

Sullivan, IL – Agri-Fab, Inc. is pleased to introduce its new 3lb-capacity garden seeder, which is perfect for the gardener who wants to plant quickly, efficiently, and accurately. The new seeder makes sure your planting goes smoothly without having to break your back to get the seed into the ground and get the growing season started.

The new 3lb garden seeder hopper holds plenty of seed while offering extreme flexibility to gardeners with seven different seed plates to accommodate up to 20 different seed types. The rust-resistant plow blade gets the ground ready to accept the seed, and our adjustable row marker will make sure that your plants have the appropriate row spacing to thrive throughout the growing season. The aluminum frame is durable enough to last for many years.

“If you’re a gardener, you are going to love this innovative product,” said Hilary Conner, Vice President of Sales and Marketing for Agri-Fab. “Being able to uniformly plant so many different seed types so easily and accurately will make our customers’ gardens the envy of every neighborhood.”

The new 3lb garden seeder is now available for homeowners’ spring vegetable- and flower-garden planting needs. You can find this and all our products at several online retailers or one of the many Agri-Fab retail partners nationwide.
