Agri-Fab Introduces Updated 85 lb. All-Season Push Spreader

Newly designed broadcast spreader is perfect year-round use

Sullivan, IL – Agri-Fab, Inc. is excited to present its newly updated 85 lb.-capacity push spreader (model #45-0575), which is the ideal size for year-round use. In the spring, summer, and fall, Agri-Fab's push spreader is perfect for fertilizer and weed-control applications. In the winter, the spreader offers a quick and easy way to precisely spread salt on sidewalks and driveways to prevent icy accidents.

The 85 lb. all-season push spreader covers roughly 1/4 acre (14,000 sq. ft.) and is quick and easy to assemble. The spreader is constructed with a durable welded-steel tubular frame and comes with 10-in. pneumatic tires for smooth transport across any terrain. The rustproof poly hopper and spreader plate last longer when handling materials that will tend to corrode, increasing product life. Agri-Fab's heavy-duty on/off control lever and direct rod control opens the slide gate, and the deflector kit adjusts on all three sides for precise and reliable material spreading. With a dispersion of up to 10 ft. wide you'll finish your fertilizing job quickly.

"Homeowners with medium or small lawns to care for are going to love the diversity of our updated 85 lb. spreader," said Hilary Conner, Vice President of Sales and Marketing for Agri-Fab. "Being able to keep lawns lush and green will be simple and easy. Plus, our rust resistant hopper and included deflector kit offers the ability to quickly spread salt where you need it during wintery conditions which keeps homeowners and loved ones safe."

The updated 85 lb. push spreader is now available for homeowners' spring and summer lawncare needs. You can find this and all our products at several online retailers or one of the many Agri-Fab retail partners nationwide.
