## **Agri-Fab Announces New Soft Top Lawn Vac**

**Perfecting the lawn is easier than ever for owners of zero-turn mowers**

Sullivan, IL – Agri-Fab, Inc. is excited to introduce its new soft top lawn vac (model #45-0630) to customers who want their lawns in pristine shape year-round. This 220-gallon capacity (29 cu. ft.) vacuum features a 10-cu.-ft. poly utility bed and 13"x4" pneumatic tires bundled with the power of a 208cc engine to gather a large amount of yard waste in no time.

Woven with ripstop nylon, Agri-Fab's soft top is constructed of a strong, thick vinyl to prevent tears, allowing customers to pick up a wide variety of lawn materials. It also includes a built-in drawstring to secure the hose and reduce wear and tear. Additionally, the soft top features venting through the back that limits dust and debris during cleanups.

"This vacuum is perfect for gathering grass clippings during the spring and summer months and leaves and other debris in the fall and winter," said Hilary Conner, Vice President of Sales and Marketing for Agri-Fab. "With its simple latch dumping operation, yard waste disposal is easy, and homeowners can get immaculate lawns quickly."

The 126"x6" clear hose is the appropriate length for zero-turn mowers, and the universal deck adapter fits perfectly to right-hand discharge decks. Assembly and storage are convenient as well with an easy top assembly that folds up quickly.

You can find this and all our products at several online retailers or one of the many select Agri-Fab retail partners nationwide.

**ABOUT AGRI-FAB:** Agri-Fab, Inc., with locations in Sullivan and Decatur, Illinois, is an American manufacturer that has designed and manufactured lawn and garden attachments and equipment for consumers and commercial landscaping and lawn care companies since 1975.
